Pounds

SWEET CORN

Price

ADAMS EXTRA EARLY

In Canada sometimes called
"First of all"

Ears—6 to 7 in. long with 12 to 14 rows
of white kernels, fairly sweet,
become smooth when ripe.

Stalk—5 to 6 feet.

Season 80 to 83 days, hardy, used largely
in the South.

*BURBANK BANTAM

Ears—7 to 8 in. long, 12 to 14 rows of
deep yellow kernels. Equal in flavor
to 8 row bantam

Stalk—5 to 6 feet.

Season 80 to 85 days. Excellent for whole
kernel pack or market garden use.
Gaining favor.

*BURBANK BANTAM TOP

CROSS HYBRID

Ears—8 to 9 in. long, 12 to 14 rows of well
colored yellow kernels. Fine flavor.

Stalk—5 to 6 ft. thrifty, vigorous

Season 86 to 90 days. Nice uniformity,
resistant and hardy. Is repeating where
tried by canners and market gardeners.

*CHAPMAN'S GOLDEN

Ears—8 in. long, 10 to 14 rows of
med. gold kernels.

Stalks—5 to 6 ft. sturdy, similar to
Golden Cross stalk.

Season slightly earlier than Golden Cross,
86 to 90 days. New corn, well received

GOLDEN CROSS HYBRID

Pounds

SWEET CORN

Price

COUNTRY GENTLEMAN

Ears—7 to 8 in. long, cob small covered with long, slender white kernels, without row formation.

Stalk—6 to 7 feet

Season 95 to 105 days. Slightly later than Stowells Evergreen. An especially fine strain with excellent quality, selected for evenness of maturity.

CROSBY, MINNESOTA 287

Ears—6 to 7 in. long, 16 rows of short sweet tender white kernels.

Stalk—5 to 5½ ft. ears well up, taller stalk than Maine Crosby.

Season 80 to 84 days, selected for earliness and uniformity. This is a well known strain for canning.

EARLY EVERGREEN

Ears—8 in. long, 14 to 18 rows of sweet, white, tender kernels.

Stalk—6 to 7 feet.

Season 90 to 95 days. A good white corn especially for the more northern districts. Selected and bred toward better uniformity.

BURBANK BANTAM

Pounds

SWEET CORN

Price

GOLDEN BANTAM

Ears—6 to 7 in. long, 8 rows of rather broad, deep yellow kernels. Flavor exceptionally rich. Stalk—4 to 5 feet. Season 80 to 83 days. A strong hardy strain, approved by canner and market gardener for its quality and yielding ability.

*GOLDEN CROSS HYBRID

Ears—8 to 10 in. long, 10 to 14 rows of light golden kernels. Fine flavor and quality. Stalk—5 to 6 ft. dark foliage. Season 85 to 90 days. Very uniform in both ear size and maturity. A popular hybrid produced by crossing pure lines of Purdue Bantam and Purdue Inbred No. 51. Selected toward earliness.

GOLDEN or BANTAM EVERGREEN

Ears—9 in. long, 12 to 14 rows of kernels, general appearance of Stowells, except is yellow color. Flavor better than Stowells.

Stalk—6 to 7 ft. Season 85 to 90 days.

GOLDEN GIANT

Ears—7 to 8 in. long, 10 to 14 rows of kernels, pointed and usually smaller than Bantam.

Stalk—4 to 5 ft.

Season 80 to 85 days. A cross between Howling Mōb and Golden Bantam.

MINNESOTA 287 CROSBY

Price	SWEET CORN	Pounds
	GOLDEN SUNSHINE	
	Ears—6 to 7 in. long, 10 to 12 rows of light yellow kernels.	
	Stalk—4 to 5 ft.	
	Season 72 to 76 days. For market and home gardeners.	
	HOWLING MOB	
	Ears—6½ to 7 in. long, 12 to 14 rows of deep, medium size white kernels, sweet and well flavored.	
	Stalk—5 to 6 ft.	
	Season 86 to 92 days, a fine large eared, white sort of mid-season maturity.	
	NARROW GRAIN EVERGREEN	
	Ears—8 to 9 in. long, 18 to 20 rows of deep narrow white kernels. Fine quality.	
	Stalk—6 to 7 ft. Same appearance as Stowells.	
	Season 95 to 105 days, slightly earlier than Stowells. Carefully selected for uniformity and yield. A superior strain.	
	SIXTY DAY GOLDEN	
	Ears—6 to 7 in. long, 10 to 12 rows of golden kernels, ear slightly pointed.	
	Stalk—3 ft.	
	Season 60 days. Good quality, very early, and repeating with market gardeners. This is a cross between Golden Bantam and 60 Day White. Plant on best soils.	
	SIXTY DAY WHITE	
	Ears—6 to 7 in. 10 to 12 rows of white kernels of good quality.	
	Stalk—3 ft.	
	Season 60 days. Selected from many early strains of white corn because of its quality and satisfactory yield when planted in good soil.	
	STOWELLS EVERGREEN	
	Ears—8 to 9 in. long, 16 rows of deep white kernels of good quality and sweetness.	
	Stalk—7 ft. sturdy growth.	
	Season 95 days to 105 days. Very popular late sort. This strain bred for a slightly more narrow kernel and better uniformity than the old strains. Approved by canners and market gardeners.	
	WHIPPLES EARLY YELLOW	
	Ears—7 to 8 in. long, 12 to 16 rows of broad deep kernels. Very sweet, fine quality.	
	Stalk—6 ft.	
	Season 78 to 82 days. In demand by market	

ON the opposite page is shown a view of our Production Headquarters at Idaho Falls, Idaho. Thoroughly modern, it has every facility for efficiency of operation.

Similar plants are maintained in Colorado, California, Montana, Utah, Washington, Wyoming, Minnesota, Indiana and Michigan.

AFTER removing all that can be taken out by the mills, the next step is to pass the seed over gravity separators. This is a process that requires close attention by an intelligent operator; the objective — to reduce actual hand picking to a minimum.

THE first operation is milling. Adequate capacity is provided by a battery of 4 mills — which can be operated singly — in tandem or as a continuous process when the condition is such as to require such treatment.

FINALLY, hand labor. At the left is shown a section of our Idaho Falls picking room where 150 women and girls are employed.

With all plants in operation, we use around 800 pickers and from 125 to 150 warehouse men.

SEEDS of QUALITY

PEAS

THE breeding and growing of peas for seed is a business in which we have specialized for 60 years. That experience is worth something; it is back of every bag of seed we send out — and it is your assurance of quality.

WE GROW PEAS ONLY IN THE WEST.

BEANS

Do best in the West, where the long sunny days, clean soil, and life-giving waters of irrigation combine to make an ideal situation for the development of disease resistant strains.

WE GROW BEANS ONLY IN THE WEST

SWEET CORN

Northern-grown sweet corn seed is famous for hardiness and vitality. It makes a beautiful sample and does well in any climate.

WE GROW THE BULK OF OUR CORN IN MINNESOTA AND THE BALANCE IN SELECTED CENTRAL WESTERN TERRITORY.
